Everyone Needs a Healthcare Home

When each of our neighbors can afford and receive high-quality healthcare, they can take care of their families, earn a living, and contribute to our culture and society, making Napa Valley stronger. OLE Health is the one place any and every person can come for innovative, high-quality, everyday healthcare. But there are still community members who need quality healthcare, and additional challenges lie ahead.

We must expand, and your support is critical to our continued success.

OLE Health Makes Us Stronger

WE DO THINGS DIFFERENTLY

At OLE Health, we believe today's healthcare options aren't giving people what they need. So we do things differently. Every day, we practice a new model of high-quality healthcare that helps people get and stay healthy. Each patient works with a dedicated team of medical professionals to get the range of services they need, when and where they need them.

We're committed to this approach because our years of experience up and down the Valley have taught us that a strong community depends on strong and healthy residents. It takes a team to build this kind of health.

A LEGACY OF SERVICE TO NAPA VALLEY

Since opening our doors in 1972, OLE Health has grown from a small community clinic in Rutherford to a \$26 million healthcare provider that offers comprehensive, innovative, and cost-effective healthcare at six regional locations. OLE Health's legacy of service to Napa Valley has become an important part of our community's infrastructure, ensuring our residents can live healthy lives and continue to support a viable and sustainable local economy.

HEALTHCARE NEEDS ARE MOUNTING

To continue our legacy of world-class healthcare in Napa Valley, we must grow to bridge the healthcare gap, ensure our residents are healthy, and grow and strengthen our community. OLE Health's new, 30,000 square foot South Napa Campus will address the challenges ahead. Current OLE Health patients will benefit from expanded services and additional providers, and we can welcome more of our neighbors who seek a healthcare home. Perhaps the greatest benefit of the new South Napa Campus is that it will support the health and wellbeing for future generations, transforming healthcare in Napa County and making our community even better.

Building Better Depends on You

“There is no better time than this very moment to invest in the health of all Napa Valley residents. The leadership OLE Health has provided during its 43-year history speaks to its compassion, dedication, and commitment to the prosperity of our region. Now is the time for us to come together as a community and help OLE Health meet the needs for generations to come.”

– John Shafer, Past President and Honorary Chair, Campaign for OLE Health

“We’re proud that our patients don’t have to travel outside the region to find best-in-class healthcare. It’s right here at home, serving the healthy individuals who are the backbone of our thriving region. Thank you for your support in building better health and a better Napa Valley.”

– Tanir Ami, Chief Executive Officer, OLE Health
